ENTERPRISE ARCHITECT / SYSTEMS ARCHITECT II / BPR SPECIALIST POSITION

Job Announcement Number: 2016-02
Location: Washington, DC
Security Clearance: Secret
Schedule: Full Time
Travel: None

Summary

Job Duties
- Document business processes, information requirements, and solution architecture in support of an organization’s IT portfolio.
- Develop technical documents relating to process-centric architectures, including business process models or similar diagrams.
- Develop an enterprise architecture from research in policy and interviews with subject matter experts by analyzing system architectures.
- Analyze information system architectural requirements for an enterprise and develop business processes to span an enterprise.

Qualifications
- A bachelor’s degree from an accredited college or university.
- A minimum of two (2) years’ experience in direct support of enterprise architecture projects. A degree in a technical field (computer science, systems engineering, computer information systems, or related area) may be substituted for the experience requirement.
- Must be a US Citizen and must have a Secret clearance prior to beginning work on the project.

How to Apply
- Email your resume and cover letter demonstrating your qualifications and ability to perform the job duties to Rick Hudnall at rick.hudnall@vailtechnologies.com.
