Summary
Interested in an exciting new career opportunity? VAIL Technologies, a provider of systems architecture, systems engineering, software development, and acquisition management services, has an immediate opening for a Senior Enterprise Architect/BPR Specialist. A dynamic and growing company with a diverse range of talent, VAIL Technologies solves complex business problems and improves business performance for executive-level Federal clients. Learn more about VAIL Technologies at www.vailtechnologies.com.

Job Duties
- Develop strategies in support of the organization’s IT portfolio.
- Develop technical documents relating to process-centric architectures, including business process models.
- Develop an enterprise architecture from a collection of subject matter interviews and research in other government architecture (e.g., Federal Enterprise Architecture, DoD Business Enterprise Architecture).
- Review system architectures and analyze information related to system architectural requirements for an enterprise.

Qualifications
- A high degree of understanding of underlying business processes and Information Technology, such as system interface diagrams and data schemas.
- An understanding of a recognized DoD Architecture Framework.
- A minimum of eight (8) years’ experience in documenting business processes and establishing relationships and linkages to IT systems.
- A minimum of eight (8) years’ experience in applying architecture data to conduct architecture-based analysis.
- A minimum of eight (8) years’ experience in direct support of enterprise architecture projects, including those focused at a business or strategic level.
- Demonstrated knowledge of some segment of business architecture (e.g., Logistics, Human Resources, Acquisition). Experience with the US Army or other DoD activity is required.
• A bachelor's degree from an accredited college or university with major study in systems engineering, computer information systems, computer science, or similar discipline. NOTE: Three (3) additional years of demonstrated experience in business architecture development can be substituted for this educational requirement.
• Must be a US Citizen and must have a Secret clearance prior to beginning work on the project.

How to Apply
• Email your resume and cover letter demonstrating your qualifications and ability to perform the job duties to Rick Hudnall at rick.hudnall@vailtechnolgies.com.
